FIRE AT ST PAUL

Four Firemen Lost Their Lives and Other Persons Injured

St Paul Minn Oct 21—As a result of a fire that broke out in the slaught ering pen of Hinman & Co s packing house shortly after midnight last night four firemen are dead and a number of others injured

The dead

WILLIAM H IRVINE, second as sistant fire chief

LIEUTENANT FRANK M FODY

... IRISH

LOUIS WAGNER

The injured

Andrew Johnson William Field in ternal injuries ... C Larkin both legs crushed

The fire which is supposed to have been of incendiary origin spread with great rapidity fanned by a strong wind From the packing house the flames spread to the warehouse of the Northwestern Lime Co and thence to the McCormick Harvester company s large brick warehouse filled with val uable machinery

The firemen had entered the McCor mick warehouse to be in a better posi tion to fight the flames A tank con taining 200 gallons of gasoline in the rear part of the building exploded shattering the walls and burying the men in the debris

The McCormick Harvester company was the heaviest loser their loss foot ing up $350 000 Of this $80 000 was on buildings and $100 000 on stock and notes all their papers and records be ing burned They carry no insurance The loss of D M Robbins owner of the packing house is placed at $35 300 which includes the loss on several ten ment houses and other buildings Other losses bring the total to nearly $440 000 Losers other than the McCormick com pany are well protected by insurance

MEXICAN AGENT

Buying Cavalry Horses in Wyoming —Only Takes the Best.

Omaha Oct 21—A special to the World Herald from Cheyenne Wyo says

Senor Manuel Alvarez an agent of the Mexican government came to Cheyenne about two weeks ago and since that time he has purchased sev eral carloads of saddle horses which have been shipped to the City of Mexico Judging from words dropped now and then by Senor Alvarez the Mexican government is preparing for war either a rebellion or a war of con ...

Alvarez will say nothing as to his real purpose in buying so many horses but it is a significant fact that he purchases only the very best saddle horses and animals that would readily be accepted by the United States gov ernment for cavalry services The prices paid are in some cases fancy and Senor Alvarez seems to have plenty of money He does say that he was di rected to this section because of the reputation of Wyoming and Colorado horses in the late war with Spain He says he wants only the very best ani mals.

UNEASINESS IN HONG-KONG

Consul Wildman Says General Anti-Foreign Outbreak is Feared.

PRELIMINARY PEACE MEETING

Probably Postponed on Account of Unreadiness of the Powers to Begin Negotiations.

Manila Oct 21—Mr Wildman United States consul at Hong Kong who is now in Manila says the ... of a general anti foreign ... and in ... China notably in Canton is growing daily and that cablegrams received by him last week record an increasing uneasiness in Hong Kong

A troop of the Sixth U S cavalry and a contingent of marines from the United States battleship Indiana have arrived here from China

Washington Oct 21—Nothing came to the state department today from Minister Conger in regard to the pro posed preliminary meeting for the con sideration of the ... suggestions asked for by Li Hung Chang and Prince Ching for Oct ...

The presumption of the officials there is that press dispatches announcing that it had been postponed is correct This postponement was due probably to the unreadiness of the powers generally to begin ... ministers in all like ... receive ... their final preliminary instructions from their governments for their guidance

The United States minister Mr Conger is prepared to proceed with the preliminary work his instructions from that department being ample to

cover all questions which it is ex pected will be raised at the beginning

Following the ... to the satisfaction of the powers will come the ... of ... negotiations by this government to conduct the final negotiations but as to their ... not the officials here are not yet willing to make any statement

REAR ADMIRAL HICHBORN ON OUR NAVAL AFFAIRS

Washington Oct 21—The report of the chief of the bureau of construction and repair for the fiscal year 1899 1900 has just been made public Especial in terest attaches to this report as it is the ... Rear Ad miral Hichborn who under the opera tion of the law will retire on the 4th of March next The period during which he has held this post has seen greater changes in the navy than other equal period in its history The chief on ... having begun as he states as ... a government apprentice employed upon the construction of the Merrimac and Hartford After speak ing of the old wooden sloops of war without protection or water tight sub division and armed with broadsides of smooth bore guns

How many of those associated with the work of this period looking into the future would have believed that during the ... of ... wooden ships of war and sails as a means of propulsion would have passed that steel should have become the material of construc tion steam the propeling power and electricity a general agent on ship board that the demands for protection armament speed and endurance would have forced the construction of little ships and armored cruisers of deep dis placements of over 10 000 and 15 000 tons and speeds of 10 to 22 knots Who of them would have believed that within that time the resources of this country could have been so developed that when such vessels of war are to be con structed every part going into them is American production

The report opens with the estimates the principal items being

For preservation of and repairs to vessels of the navy $7 000 000 for re pairs and improvements to navy yards plants $920 000 all account of hulls and outfits of vessels and steam ma chinery ... 7 2 917

The chief of constructor points out the disadvantage under which the naval station at Cavite labors and quotes a report from the naval constructor rel ative to a proposed site at Olongapo Subic bay He withholds recommenda tion thereon until the question of a per manent naval station in the Philippines is definitely settled

Especial emphasis is placed upon the need for additional dry docks He says

There are available at the present time on the east coast of the United States but nine government dry docks of all sizes distributed among seven ports and of these but one is of suf ficient size to take the battleships The docking facilities available are severely taxed under existing peace conditions

This disparity in time of war would be an extremely serious matter and might result in ... a considerable portion of our naval strength ineffective at critical times It cannot be too strongly urged that the increase in docking and repair facilities in an ade quate ratio to the increase in the fleet is a necessary element in naval develop ment and it should be especially em phasized that in this most important matter war requirements and not peace requirements must always be kept in view

Some space is devoted to the question of building vessels in the navy yards He says

There is at the present time in view of the prosperous condition of the ship building industry and the number of naval vessels building and appropri ated for sufficient work to permit the assignment of a portion of the build ing work to the government yards with out there being a question of with holding of necessary support and as sistance the maintenance of which in a high state of efficiency is unquestion ably of national importance

He points out that England is build ing in her navy yards 11 battleships and cruisers France 17 Germany ... Russia 6 and Italy 3 in their ... ment yards

Concerning the batteries of battle ships he says

The decision finally come to in the ar rangement of the batteries of the new battleships was a compromise between opinions The merits and demerits of the super imposed turret have been under discussion for some years The completion of the first battleships to which the system has been applied and the trials to which they have been sub jected have demonstrated only the me chanical practicability of the system

of mounting It has been recognized from the commencement of the discus sion that there are grave disadvantages in this system of mounting There is nothing in the experience with the two vessels recently completed tending ... They may be ... or to determine the extent of their effect upon the vessels in which this system is employed The decision of the ... vessels has been ... in the first ... was ... the decision reached in the first vessels on which the system was ap plied and is based upon the same pre sentation of ... and con ... although the navy now possesses the means of determining practically at any rate a portion of the points at issue

Admiral Hichborn deals at some length with the question of sheathing and says

... possibility to pre vent such fouling that in a short time after docking the steel is sensibly re duced and after the lapse of a very few months her speed capabilities are cut down 2 per cent to nearly 50 per cent except by providing her with a wood sheathed and composition bottom The practice is an old one Its prac ticability and freedom from injurious effect upon the ship to which it is ap plied even the element of safety which it adds have been fully demonstrated

Much of the prejudice against it ... he adds is born of incomplete in formation as to what is really involved and is of the same nature as that which opposed the introduction of steam navi gation and steel ships

In speaking of the steel for naval vessels it is pointed out that nearly 50 000 000 pounds of steel material has been inspected passed and shipped dur ing the year by the inspectors under the bureau of construction and repair and presenting an increase of more ... per ... quantity of this material required

The vast extent of the figures gives some idea of the extent and importance of the operations carried on under this bureau

Speaking of submarine boats the re port says

The past year has brought to frui tion the experimental work covering a considerable period and has demon strated the practicability of the sub marine boat There can be little doubt that to the first nations in the field with the new type will accrue not only the advantages which will come from the possession of efficient vessels of this type but the additional advantage and saving in cost which will result from an early understanding of the new type and the modifications which its intro duction will force in existing types.

LETTER FROM AGUINALDO

Hints at Plans by Armed Rebels in the Field Communication Declared Genuine

Manila Oct 21—Senor Buencamino has received what purports to be a let ter from Aguinaldo ordering the former leaders of the revolution who are now in Manila to desist from the formation of political parties and to cease all their attempts at pacification The let ter mysteriously hints that plans are maturing among the armed rebels in the field and describes these as best for the country Senor Buencamino declares that the letter is genuine

The military situation was compara tively quiet last week The commission the military authorities the Filipinos and the foreigners are awaiting the result of the presidential election in the United States Many persons assert that whatever this may be it will have no immediate effect on the situation in the Philippines and that disorders and guerrilla attacks will continue for a time

M'FACHERN WON

New York Oct. 21—Archie McEach ern won the 25 mile professional bi cycle race at the Vailsburg track New ark today A story had been circulat ed before the race started that Kramer Walthour and Hatfield had formed a combination to shut out the outsider during the race but the plan failed be cause of the superior riding of Aaron son and McEachern who were a lap ahead of the others at the 23d mile

MISSED HIS TRAIN

W J Bryan Was Detained at Buffalo and His Private Car Left Without Him

Huntington W Va Oct 21—The car Rambler in which Hon W J Bry an is making his tour of the country ... about 8 o clock tonight without the candidate It brought only the newspaper correspondents who usu ally accompany Mr Bryan and who had been separated from him at Buf falo

Mr Bryan s failure to reach here on time was due to a series of unsched uled occurrences In order to make connections it was necessary for the Rambler to leave Buffalo at ... o clock last night Mr Bryan s meeting in that city kept him so late that it was impossible for him to leave at that hour and he desired that the car should proceed without him When the car ... Pittsburg they discovered that Mr Bryan had not arrived and that he could not reach that city in time to allow the car to be attached to the regular train on the Ohio river road which was the only train of the day that would reach Huntington in time to allow Mr Bryan to make a speech there tomorrow morning They therefore proceeded on their way to Huntington and at Wheeling learned that Mr Bryan had concluded to attempt to come to Huntington by way of Colum bus Ohio with the expectation of reaching this city early tomorrow morning

At Wheeling the correspondents were met by a committee of distinguished West Virginia Democrats who will ac company Mr Bryan throughout his West Virginia tour The fact that Mr Bryan was to cross the state today though without any intention of mak ing speeches had apparently become generally known for stopping places were filled with people in their Sunday clothes who had come out to greet him There were large crowds at all the points along the line of travel At many places where the train did not stop including farm houses and churches the people were gathered in numbers and waved their greetings to the train as it passed by At many of the stopping points the people were quite incredulous about the absence of Mr Bryan and some of them insisted on going through his car and making a search for him

There was a general expression of disappointment over his non appear ance

Pittsburg Pa Oct 21—W J Jen nings Bryan arrived in this city un announced this morning over the Pitts burg and Lake Erie road and left for Huntington W Va via the Pan Han dle route Through the failure to con nect at this point with the special car which had been sent from Buffalo ahead of him Mr Bryan was compelled to take a Pan Handle train for Colum bus where he will take a Norfolk & Western train for Huntington arriving about 1 o clock tomorrow morning Mr Bryan s short stay here was not marked by any special ceremony owing to the fact that his coming had not been heralded His presence soon be came known however and he was called upon at the Monongahela house by a number of local Democratic lead ers for a social chat The trip from the hotel to the station was made by street car and upon arrival quite a crowd had gathered and insisted on a hand shake all around

Leaving Pittsburg Mr Bryan im mediately sought his berth in the drawing room of the sleeper where he rested during the afternoon At the various towns through which the train passed crowds had gathered at the depots but the candidate kept his bed

MOTOR PACED RACE.

Chicago Oct 21—According to the referee Johnny Nelson of Chicago de feated Jimmy Michaels by default in their match motor paced race at the Coliseum tonight The chairman of the National Cycling association will have to render the final decision as there is a controversy over the referee s ver dict The race was for 15 miles and the men had an agreement that if either should meet with an accident during the first mile the race should be started over again Michaels motor broke down just as he was finishing the first mile and he pulled up think ing he was inside the safety limit Nelson who was leading when the ac cident happened continued until stop ped by the referee and told he had won as Michael refused to go on claiming he had not passed the mile mark when misfortune overtook him

The men then decided that in order to give the spectators their money s worth they would give a 15 mile exhi bition Michael won the race by three laps and broke all indoor paced rec ords up to and including 15 miles His time was ... 20 The former record was 2 ... 41 1 5.

W J Williams representing a large British Columbia mining syndicate was in the city yesterday and will visit Colorado mining camps to get sugges tions for his company

OPERATORS RESPONSIBLE

For Continuation of the Strike in Pennsylvania Coal Fields.

PRESIDENT MITCHELL TALKS

No Partial or Sectional Settlement Will Be Made All Operators Must Guarantee Advance.

Hazleton Pa Oct 21—When Presi dent Mitchell of the United Mine Workers was asked tonight by a repre sentative of the Associated Press what he had to say in regard to a settle ment of the anthracite miners strike he said

As there appears to be some disposition on the part of the public to place responsibility of the prolonga tion of the strike on the shoulders of the mine workers speaking for them I want to say that when the Scranton convention accepted the 10 per cent ad vance in wages providing the operators abolished the sliding scale and guar antee the payment of the ... until April 1 the miners had met the operators more than ... They had shown a ... spirit and I know of no good reason why the propo sition should not have been accepted by the ... er

As ... responsibility for the continuation of the strike rests solely upon the failure of the operators to ... the proposition of their em ployes completely The public should understand that unless the stor... as is the proposition of the operators who ... the reduction in the price of ... as a part of the advance of 10 per cent that even this proposition has not ... by ... the coal producing companies in the anthracite region and until all com panies guarantee the payment of the 10 per cent advance above the rate of wage paid in September until April 1

according to the decision of the Scran ton convention the mine s ... power less to act I want to say at ... that there can be no partial ... settlement of this strike

The large companies in the Lehigh region that have refused to ... since the Scranton convention was held ... Coxe Bros & Co the largest coal producers in the Lehigh region ... Markle & Co the Lehigh & Wilkes barre company the Lehigh Coal & Nav igation company and a large number of smaller companies There is also a ... number of coal companies in the ... and Wyoming re gion that have not guaranteed the payment of the 10 per cent advance until April 1 The only district that has accepted the terms of the Scran ton convention in full is No 9 better kno ... Schuylkill district

Companies which produce about 65 per cent of a total production of ... anthracite coal fields have guarant ... the payment of the 10 per cent ... vance and have abolished the slid ... scale

When Mr Mitchell was asked what he would do if all the companies ... to post notices he said

When all the companies have ... notices then I will have something ... say

When ... was suggested to him that there might be a break in the ... the strikers if the contest was ... tinue much longer he said that ... men will go back to the mine ... they are officially notified to re

MEETING OF PRESIDENTS OF COAL MINERS' UNIONS

Scranton Pa Oct 21—A meeting of the presidents of the Scranton local unions of the United Mine Workers was held this afternoon to discuss the advisability of taking aggressive steps toward closing up the washeries After carefully canvassing the situation it was decided to let the matter rest for a while The fact that the end of the strike is generally believed to be at hand impelled the meeting to refrain from making this move which is gen erally conceded would be attended with the possibility of disorder and which would have a tendency to do more harm to the cause than to the opera tors of the washeries

The general situation was also dis cussed and one of the presidents at the conclusion of the meeting stated to the Associated Press that in his judgment the men would be perfectly satisfied to accept the 10 per cent offer with the powder clause included

All that we can expect to enforce is that we get the 10 per cent said he It is hardly the thing for us to think that we can dictate to the companies how they shall pay the advance

Organizer Fred Dilcher does not talk this way however He says the con vention demanded a straight 10 per cent advance with the powder ques tion left for future adjustment and that until this demand is complied with to the very letter the officers have no authority to call off the strike

The strikers here believe that the companies that have failed to comply with the terms of Tuesday s agreement to post amendments to the original of fer guaranteeing its continuance till April 1 1900 are prompted by a desire to hold up the settlement and see if it is not possible to cause a break in the Schuylkill region

PRESSURE ON OPERATORS TO END STRIKE QUICKLY

Wilkesbarre Pa Oct 21—The gen eral belief here is that the coming week will see the wind up of the strike The strikers do not admit this openly but it is the feeling that the ... cannot be continued much longer Both sides are expected to make concessions The operators say they have none to make but under certain pressure they are expected to make them ... less The politicians have had their say ... settlement and now the sales agents of the big companies and the retail deal ers in the big cities are taking a hand They are writing and telegraphing every day to the coal companies that unless something is done very soon to bring the strike to an end and an ef fort made to get some hard coal on the market it ... figures the anthra cite trade will be demoralized for years to come and some of it will be lost for ever

One sales agent writes

One of my largest customers tells me that consumers are getting to like bituminous coal and that they think they will keep on using it

It is such reminders as these that make the operators just as anxious to settle the strike as the miners But the strikers must make the biggest conces sions and there is every reason to be lieve that they will do it before the week is out Many of the ... strike argue this way

Let us accept the last offer of the companies and settle the powder ques tion later on If we return to work we are sure to get an increase over the wages paid in the past no matter how the operators try to figure it out and we can afford to bide our time for the settlement of the powder issue

Of course there are some strikers who favor holding out until every de mand is granted but this class is not in the majority They are men who own their own homes and have their larders well filled for the winter They can afford to hold out against the com panies but the bulk of the strikers can not

President Mitchell is now thoroughly acquainted with the condition of af fairs in the Wyoming and Lackawanna regions and as late as today told one of the Luzerne county officers of the ... Mine Workers who is ... Hazle ton that he would not stand in the way of a settlement if the miners of the Wyoming region wanted to return to work under certain conditions Mr Mitchell is expected to take a decided stand tomorrow on the issues that now stand between the operators and min ers of the anthracite districts

BOTH SIDES FIRM

Miners Say They Will Not Return to work—Operators Don't Care.

Shamokin Pa Oct 21—Committees of United Mine Workers canvassed the Philadelphia and Reading Coal & Iron company strikers at this place Mount Carmel and Locust Gap today to learn whether any of the men intended going to work tomorrow The strike leaders said this evening that no one would re spond to the blowing of the whistles ex cepting engineers and fire bosses

A prominent local official of the Union Coal company says the company positively refuses to concede to any of the demands made by the Scranton convention The company claims that their busy season has been ruined by the strike and they do not care when the strike is settled feeling positive that they can hold out much longer than the striking miners The company controls four large collieries in the Shamokin region

INSANE CRIMINALS

In New York State Hospital Start a Revolution and Assault Their Keepers.

Poughkeepsie N Y Oct 21—There was a revolt at the Matteawan state hospital for the crim inal insane this evening when six or eight keepers were as saulted and overpowered by about 20 insane inmates Some of the patients escaped and seven are still at large One or two of the keepers are badly injured

After the patients had been given their supper they were taken back to their apartments with their keepers Among the ... in one of the large corridors, where there were six or eight keepers. There were no suspicious movements on the part of the patients But sudden ly and without warning each keeper was attacked simultaneously by two or ... on the heads of the surprised attend ants. The keys held by the keepers were taken from them quickly and a rush for the door was made The pa tients first passed through the dining room where each picked from the table a heavy plate or cup or bowl From the dining room they went through the adjoining rooms the doors of which were then unlocked and then into the long hall leading to the rear exit Through the yard they ran like deer and crowded around the big gate in the wall while one of their number was turning the key in the lock When the gate was thrown open they rushed out of the yard fairly tumbling over each other in their anxiety to gain freedom.

In the meantime the keepers had re covered sufficiently to give an alarm ... across the hospital farm and all but seven of the patients were taken back to the institution and securely locked up in other parts of the building The searching parties start ed out to scour the woods in the vicin ity of the hospital The keepers who were assaulted were given medical at tention and were able to join in the search for the fugitives

The revolt it is thought was caused directly by the cramped quarters at the hospital

Washington Oct 22—At 12 30 o clock ex-Secretary Sherman is still alive but was slowly sinking.

Advertising That Pays

Any advertising expert will tell you that advertising pays only so far as the article advertised is good, and is as represented. In other words, it only pays to advertise a good thing.

We do considerable advertising, for a book store, we shall do a good deal more in the future.

It has paid us well in the past because we have a good store, and because we tell the truth about it. It will pay us in the future for the same reason.

We are doing a nice business can do more.

We solicit your trade.

NEWS NOTES FROM PUEBLO

United States Court Finished Docket and Adjourned.

SENTENCES WERE PASSED

Carload of Beet Sugar From Sugar City Received—Schoonmacher Will Speak.

Pueblo Oct 21—The United States court finished the docket yesterday morning and adjourned for the term. Judge Hallett returned to Denver. The following cases were heard and sentences passed:

Thomas Kelly charged with embezzlement of a letter containing money pleaded guilty and was sentenced to one year and three months in the penitentiary at Canon City.

Martimes J Clark pleaded guilty to embezzlement of funds while postmaster at Summitville Colo fined $100 and costs and committed to Pueblo city jail until paid.

Michael Kelly pleaded guilty to having molds for the manufacture of counterfeit coin in his possession sentenced to two years in the United States penitentiary at Leavenworth Kan.

Alfred Funke for forging a money order on the Denver postoffice pleaded guilty and was sentenced to one year and one day in Canon City penitentiary.

George Venker charged with forging money order on postoffice at Olcott Colo pleaded guilty and was sentenced to Canon City for one year and three months.

Albert Ketchum pleaded guilty to sending obscene matter through the mails. It being shown that it was unintentionally done by the accused the sentence was made light being fined $1 and costs.

Francesca Guldotti who was found with counterfeit coin in his possession with intention of passing same was sentenced to Leavenworth for two years and fined $50.

Wilber P Crites was fined $50 and costs and committed to Pueblo county jail until paid.

A motion for a new trial in the case of the San Luis Valley Land and Mining company against J W Stambaugh and J T Dincom was denied.

The Business Men's association has received a call asking them to appoint delegates to attend the state convention on good roads to be held in Denver Oct 30. The object of the convention is to organize a state good roads and improvement association and to select delegates to the National Good Roads convention to be held in Chicago Nov 19 20 and 21. The subject will be taken up by the Pueblo association at its next meeting.

A carload of beet sugar being a portion of the first product of the Sugar City factory, was received by the Henkle-Duke Mercantile company in this city this morning. The consignment consisted of about 250 sacks of very fine and is sweet sugar as was ever unloaded in Pueblo. In comparison with cane sugar experts claim that the beet sugar received here today is superior to that made from cane being sweeter and of finer grain.

Hon Francis V Schoonmacher of New York will address the Republicans at their headquarters tomorrow evening.

The eight cases of those charged with delivering coal without the city weighers certificate which were to have had a hearing before Justice McKallip Saturday morning were continued until Oct 23.

FLORENCE

Big Record of Brick and Tile Factory—High School Grades Form Class Organizations

Florence Oct. 21—The Florence Brick Tile and Investment company has started another kiln of brick. As this will be the last for the year the company will work on it until the weather interferes. It has made five kilns during the last six months with a total of 800,000 brick aside from the one being made at present which when completed will make nearly 1 000 000 brick. There have been steady and increasing orders, and in all probability all that are now on the ground will be sold before Christmas.

At the suggestion of Mr Miller teacher in the high school the grades of the school are forming class organizations. The twelfth grade has selected as class colors white gold and purple. The tenth grade has chosen the colors of the state normal namely pink and green. The ninth grade ... colors orange and black. The eleventh grade has not as yet organized.

Harry Culp has been taken to the Sisters hospital at Colorado Springs. He was injured while working at Detmore's camp near Colorado Springs on the Colorado and Southern. He was brought here where he received medical treatment. The accident happened while working in a cut when a loose rock rolled on his foot and severely crushed it.

A composition of the creditors of the New York store which failed here a short time ago has been effected and the proprietor J J Somerville has tided over the breach. He again opened his doors to the public Saturday morning.

Great interest is manifested here with the local Gun club in the out door ... contest which is open for all gun clubs west of the Mississippi river to the Pacific coast. In the average for this contest Florence club stands in the lead. Up to this time there have been 60 birds shot at out of the 90 the required number. There have been ... three straights made and Florence has two of them. These shooters are John Hornes and A F Miller and the third straight was made by a Mr Williams of Wichita and out of the 60 George M and ... Delbert have made 59. Florence, as will be seen is ahead in the ranks with very fair prospects of carrying off the honors. Great interest is being taken by the local club preparing for the state shoot. Invitations will be issued shortly to all shooters in the state.

Piper Bros of the Piper Bros company were in the city yesterday to sign ... the construction of the sewer. They stated that it will be but a short time before dirt is flying on the site.

The Oil Well Supply company has shipped another car of machinery to ... Clark Whe...er at Wolcott Routt county where he is prospecting for oil. This makes the fourth car that has been shipped him. It looks as if Routt county ... fair to become a rival to the Florence oil field. The oil fields of the state are not nearly developed and in time more fields than the present ... will be discovered. Agents of companies are now out looking over the territory of the state keeping a watch out for formations indicating the presence of oil.

August Fast of Silverton has purchased two business lots in the heart of the city for investment purposes. And at the same time there has never been so much inquiry locally for lots improved and unimproved property as at present. Main street near the corner of Santa Fe avenue is certainly a scene of activity. The Columbia business block going up on one side and the Wilson annex on the other will nearly fill up that block. Piles of brick, rock and lumber are in evidence.

DEATH OF JOHN GATLIGER

Walsenburg Miner Found Dead in the Streets of that City

Special to the Gazette

Walsenburg, Colo, Oct 21—John Gatliger a miner at the Walsen mine was found dead in the main street of the coal camp this morning.

Galliger was seen last night about 9 p m. He was then in an intoxicated condition and inquired of some other man where he was.

No attention was given him as they thought he was going to his room. This morning he was found near a ditch which runs down the streets and from the condition of his clothes it is believed that in his drunken stupor he fell into the water and was only able to get out without drowning, where he lay on the ground and when found this morning was frozen stiff.

He has been employed in the mines here for the past five days and was one of the company's best workers.

He is a single man leaving no relatives in this part of the country.

LONDON STOCK MARKET

London Oct 21—The cheapness of money last week stimulated consols and other high class stock but did not help home railway securities. These closed mostly lower on the week although ... shares suddenly shot up thirty points on the strength of doubtful rumors that an American syndicate was trying to secure control of the line with a view of introducing electrical traction.

Most departments closed firm yesterday owing to the Anglo-German agreement regarding China although the full effect of this was not felt because the attendance on the stock exchange as is usual on Saturday was small the house being half empty. Consols were 1 1-16 easier at 98¾. Chinese securities showed an advance of ¾ point.

The feature of the week however was the activity in Americans which enjoyed quite a boom. Northern Pacifics ... Southern Pacific ... Atchison ...

The mining market is still very dull though it is beginning to show signs of activity. The slightest favorable report sending prices up as was the case yesterday when the mere rumor that General Dewet had surrendered caused ... improvement all along the line. Rands rising ¼.

Money was abundant at the following rates of discount: Until Monday 1 per cent for a week 1½. ... three months bills 3¼.

AFRICAN EXPLORER

Young Chicago Engineer Arrives in Paris After Four Years Spent in Africa.

Chicago, Oct 21—Word was received here today of the arrival in Paris of the young American explorer and engineer William Stripps Cherry of Chicago. He comes direct from the Congo Free State. Since Mr Cherry left Chicago nearly four years ago on his second trip he has visited a considerable portion of the unknown lands in the Congo Free State and also the country north of the Congo including the Kittu region. Mr Cherry brings back considerable data of the country he has been traveling through which will be of immediate historic and scientific interest.

When England and France nearly went to war over the Fashoda affair Major Marchand, it will be remembered had taken possession of that portion of the country on the Nile as an outlet on that river for the French possessions. Mr Cherry at that time was the leader of a second expedition organized in the French Congo which followed closely the one led by Marchand.

Mr Cherry on his trip took with him besides supplies for the French a steamer in sections and upon arrival on the banks of the Nile supervised the steamer's re-construction. This boat played an important part in that international episode as the intention of France was to use the steamer in establishing French domination over the lands bordering on the Nile.

On his return to the Congo country from Fashoda Mr Cherry devoted a portion of his time to the exploration of the hitherto unknown Kittu region back to the north of the Congo Free State and the French Congo country. The Kittu region is far removed from the portion of Central Africa with which Henry M Stanley made the world so familiar.

It is expected that Mr Cherry will bring back considerable information of the social life and industries of a people never before visited by a white man. The young engineer ... to equatorial Africa to correct any misleading information about that country. He has taken a series of photographs of the various African tribes and also added largely to the collection of curiosities secured on his first trip. Mr Cherry was accompanied on his latest trip by Mr Charles H McClintock of Chicago. About a year after their arrival in the French Congo state Mr McClintock succumbed to African fever. Mr Cherry then continued the trip alone.

ROOSEVELT RESTING

New York Oct 21—Gov Roosevelt spent today at his home at Oyster Bay quietly resting. He received no one. The governor did not go to church and Private Secretary Young explained the refusal to see any one on the ground that every moment that could be stolen from the campaign must now be taken advantage of in order to save the candidate's strength. He was suffering from his throat somewhat but not to such a great extent as was feared. The strain on the vocal chords had strengthened them after making them sore and the governor's voice was now in far better condition than after less work during that last state campaign.

Gov Roosevelt will leave Oyster Bay tomorrow morning for New York to commence his last tour of the campaign.

TEXAS TORNADO

Atlanta, Texas Oct 21—A tornado struck about a half mile west of Bell and 15 miles west of here today sweeping everything for 200 feet wide before it. One house in the center of its path occupied by colored people was destroyed six people being killed outright. Three others are missing.

The tornado crossed the Texas & Pacific railroad at Campbellsville and a lumber loading station two miles north of Lodi and carried away considerable lumber. It is feared further loss of life has resulted in the country. A hard rain fell here all morning. The result will be considerable damage to the cotton crop.

SENATOR HANNA

Says South Dakota Will go Republican and Perhaps Nebraska Too

Chicago Oct 21—Senator Hanna and ... arrived here this afternoon from Omaha. Senator Hanna will probably leave here tomorrow for New York while Senator Hanna will devote most of the coming week to speech making in Chicago with Joliet Ill and Milwaukee Wis also on his itinerary. Senator Hanna was almost worn out from his week's traveling and was suffering considerably from rheumatism. He was driven to his apartments immediately upon his arrival.

I have taken South Dakota out of the doubtful column said Senator Hanna. There is no doubt in my mind that its electoral vote will be cast for McKinley. Of course surface indications are all one can go by on a trip of that kind but the immense crowds and the warm greetings ... no other opinion possible. I ... personally ... thoroughly believe Nebraska will also go for McKinley.

DECIDE YOURSELF

The Opportunity is Here, Backed by Colorado Springs Testimony

Don't take our word for it.
Don't depend on a stranger's statement.
Read Colorado Springs endorsement.
Read the statements of Colorado Springs citizens.
Here is one case of it.

Mr Otto Rupp of 416 East Huerfano street says: "When I contracted a cold it either weakened or over excited my kidneys and as a result I was annoyed both day and night by too frequent action of the kidney secretions. Reading about Doan's Kidney Pills curing similar cases I got a box at Jones & Wellington's drug store 109 N Tejon street and took it. Much to my surprise and more to my gratification I was not only immediately helped but the weakness ... of my kidneys ... ."

For sale by all dealers. Price 50 cents. Foster-Milburn Co Buffalo N Y sole agents for the U S.

Theodore Roosevelt

STATESMAN, HISTORIAN, ECONOMIST, AUTHOR AND SOLDIER, GOVERNOR OF NEW YORK, AND CANDIDATE FOR VICE PRESIDENT OF THE UNITED STATES

Promptly upon Governor Roosevelt's nomination for the vice-President the leading Republican and independent newspapers believing they would be rendering a public service formed an association to act as one buyer of an enormous edition of Governor Roosevelt's writings so that all newspaper readers could obtain a fine library edition at a nominal price. The representatives of the papers arranged with Governor Roosevelt's publishers Messrs. G P Putnam's Sons to obtain from them a limited edition to be sold for

$7.50 A Set in Cloth Binding, Instead of at $24.50

the price which has heretofore prevailed. This edition is

To be SOLD to NEWSPAPER READERS ONLY

in sets of Fifteen Volumes for $7 50 or in single Volumes

For 50 Cents a Copy

They also arranged for a limited number of copies to be bound in paper covers with untrimmed edges so that those desiring it could have the works bound in half calf or other fine and expensive binding as individual taste might desire. In this form they will be sold for the almost nominal price of $3 75 for the set of Fifteen Volumes or in single volumes

For 25 Cents a Copy

The Messrs Putnam's well known and well deserved reputation as makers of fine books renders a further description of this beautiful edition unnecessary.

It may be stated however that amongst the illustrations will be found three separate portraits of Governor Roosevelt as huntsman, soldier and in civilian dress, and that

GEN. FRANCIS VINTON GREENE

has written a biographical sketch of Governor Roosevelt which will appear in this edition only.

Remember the price heretofore in cloth binding cheapest edition, has been $24 50 and in finer binding up to $100 a set, at which many copies have been sold.

The present price of 25 cents a volume or $3 75 for the set in paper covers, and 50 cents a volume or $7 50 a set in cloth binding has been made with Governor Roosevelt's approval to enable all his friends and admirers (and they are legion) as well as his opponents who are honest in their desire to know him as he is to secure the set of these works at a moderate price. They will form a permanent and valuable addition to every library. The edition is limited and after newspapers have made the distribution to their readers the regular price of $24 50 a set will prevail. Therefore delay in ordering now may lead to disappointment.

ACT NOW AND SECURE THE SET

TITLE

Volume I
American Ideals. With a biographical memoir by Gen Francis V Greene

Volume II
Administration—Civil Service.

Volume III
The Wilderness Hunter

Volume IV.
Hunting the Grisly

Volume V
Hunting Trips of a Ranchman

Volume VI
Hunting Trips on the Prairie and in the Mountains

Volume VII
The Rough Riders
Included under arrangement with Charles Scribner's Sons.

The Winning of the West. Part V. St Clair and Wayne.

Volume XIII
The Winning of the West. Part VI. Louisiana and Aaron Burr.

Volume XIV.
Naval War of 1812 Part I.

Volume XV
Naval War of 1812 Part II.

To form a true estimate of Governor Roosevelt's character one must read his writings. They show, as no words can, what the man is.

Over One Hundred Daily Papers take part in the distribution in hundred cities throughout the country, and the Gazette undertakes the task or rather the pleasure of supplying its readers for this section with any one or all of Mr Roosevelt's books as above as long as the edition lasts. The right to withdraw this offer as soon as the proportion of the edition allotted to the Gazette is exhausted is reserved, in which case all moneys received too late will be returned.

MAGNIFICENT PHOTOGRAVURE PORTRAIT OF GOVERNOR ROOSEVELT FREE

To all who remit $3 75 for the complete set of 15 volumes in paper covers or $7 50 for the complete set of 15 volumes in cloth covers there will be sent free of all charge a beautiful photogravure portrait of Governor Roosevelt, printed on INDIA PAPER, mounted on fine plate paper, suitable for framing. This is a duplicate of the portrait appearing in the $100 edition of Governor Roosevelt's works and is considered the best likeness extant. If bought in the art stores it would cost at least $1 00. Framed, it will make a most desirable addition to every library or office.

HOW TO SECURE THE VOLUMES

This voucher will appear in the Gazette. Clip one of them and send to the Gazette Colorado Springs Colorado with price of volume desired and the volume selected will be promptly delivered by mail, allow a few days for the volumes to reach you as the books are mailed from New York.

Readers desiring the complete set may send $3 75 for the paper-covered edition or $7 50 for the fine cloth bound edition and the 15 volumes will be promptly delivered or sent by express charges prepaid.

One Constable for Long term

Notice also is hereby given that at the General Election to be held on the sixth day of November A D 1900 there will be submitted to the qualified electors of the State of Colorado the question of amending the constitution of said State.

The authority for submitting such question is found in Senate Bill No 11 which is in words and figures following viz

AN ACT

To Submit to the Qualified Electors of the State of Colorado an Amendment to Section Two (2) of Article Nineteen (XIX) of the Constitution of the State of Colorado

Be It Enacted by the General Assembly of the State of Colorado

Section 1 That there shall be submitted to the qualified electors of the State of Colorado at the next general election for members of the General Assembly for their approval or rejection the following amendment to the Constitution of the State of Colorado which when ratified by a majority of those voting thereon shall be valid as a part of the Constitution namely Section 2 of article XIX of the Constitution of the State of Colorado shall be so amended as to read as follows

Sec 2. Any amendment or amendments to this Constitution may be proposed in either house of the General Assembly and if the same shall be voted for by two thirds of all the members elected to each house such proposed amendment or amendments together with the ayes and noes of each house thereon shall be entered in full on their respective journals the proposed amendment or amendments shall be published with the laws of that session of the General Assembly and the Secretary of State shall also cause the said amendment or amendments to be published in full in not more than one newspaper of general circulation in each county for four successive weeks previous to the next general election for members to the General Assembly and at said election the said amendment or amendments shall be submitted to the qualified electors of the state for their approval or rejection and such as are approved by a majority of those voting thereon shall become part of this Constitution.

Provided That if more than one amendment be submitted at any general election each of said amendments shall be voted upon separately and votes thereon cast shall be separately counted the same as though but one amendment was submitted. But the General Assembly shall have no power to propose amendments to more than six articles of this Constitution at the same session

Sec 2 Each elector voting at said election and desirous of voting for or against said amendment shall deposit in the ballot box his ticket whereon shall be printed the words "For the Amendment and Against the Amendment" and shall indicate his ... by placing a cross opposite one or the other of said groups of words

Sec 3 The votes cast for the adoption or rejection of said amendment shall be canvassed and the result determined by the laws of the State for the canvass for Representatives in Congress

Approved February 16th A D 1899

In testimony whereof I have hereunto set my hand and affixed my seal at Colorado Springs this 12th day of October A D 1900

(Seal) W H Reed
County Clerk.

THE GAZETTE HAS MORE THAN DOUBLE THE CIRCULATION OF ANY OTHER DAILY PAPER PUBLISHED IN COLORADO OUTSIDE OF DENVER.

IT HAS 50 PER CENT GREATER CIRCULATION IN COLORADO SPRINGS AND VICINITY THAN ANY OTHER DAILY PAPER PUBLISHED IN COLORADO SPRINGS

IT FURNISHES SWORN STATEMENTS OF ITS CIRCULATION TO ADVERTISERS, AND ITS PAID CIRCULATION IS GUARANTEED BY THE ADVERTISER'S GUARANTEE COMPANY OF CHICAGO.

LAST DAY OF REGISTRATION.

TODAY IS THE LAST OPPORTUNITY TO REGISTER FOR THE COMING PRESIDENTIAL, STATE AND COUNTY ELECTION.

NO PERSON WHOSE NAME IS NOT ON THE PERMANENT REGISTRATION BOOKS WILL BE ALLOWED TO VOTE AT THAT ELECTION

EVERY AMERICAN CITIZEN, REGARDLESS OF PARTY, SHOULD FEEL IT A DUTY TO PARTICIPATE IN THE DETERMINATION OF POLICIES AND OFFICEHOLDERS

QUESTIONS OF FAR-REACHING IMPORTANCE ARE AT ISSUE, AND THE DECISION WILL AFFECT FOR GOOD OR EVIL OUR STATE AND OUR NATION AND EVERY HOME AND INDIVIDUAL IN OUR LAND

IF YOU HAVE NOT YET MADE UP YOUR MIND HOW YOU ARE GOING TO VOTE, REGISTER TODAY, AND SETTLE UPON YOUR CANDIDATES AFTERWARDS

THE REAL RESIDENCE CITY OF COLORADO.

IF ONE-TWENTIETH part of the stuff which the Denver papers have been printing about the conditions in that city is true, it is a little the worst and most lawless city in the west. Make all due allowances for campaign exaggeration and they still show a condition of affairs which does not have a tendency to attract either capital or people, and the most deplorable of such conditions is the fact that the public press of that city unanimously undertakes to settle the issues of a great presidential campaign by appeals to the passion and prejudice of the people of Denver with reference to local matters, which, whether true or false cannot but damn the fair name of the city and injure its business and moral standing wherever such papers are read

The most damaging feature of all of this is the implied fact that the people of Denver can be influenced in this election by such stuff.

Not since the civil war has there been an election in the United States fraught with so many or so important consequences as the present one

The whole policy of the nation depends upon the result at the polls in November. No people appreciate just what is involved in this election any more fully than the people of Colorado, and none will come any nearer settling all questions in accordance with their convictions.

What a reflection, therefore, it is upon the intelligence of any part of our people to imagine they are going to be influenced one iota by anything but reason, argument and conviction in the casting of their ballots.

It is quite certain that Colorado Springs people will not be influenced by any other consideration, for this is an enlightened, progressive and patriotic community where law and order reign at all times, in campaign season, as well as out of it, a community which is too proud of its abode to permit any person for any cause to slander or malign it, a community which welcomes capital and holds out the right hand of fellowship to the new citizen a community which, being rich itself, is always willing to help others to become rich from its boundless resources and its unrivaled opportunities; a community whose refinement and culture appeals to refined and cultured people everywhere

COLORADO SPRINGS IS THE RESIDENCE AND BUSINESS CITY OF THE STATE, AND A CASUAL READING OF THE DENVER PAPERS WILL CONVINCE THE MOST SCEPTICAL OF THIS FACT.

WOMEN IN POLITICS.

THERE is much rot emanating from the public press and from public speakers with reference to the duty of women in politics Most of such stuff comes from those who were opposed to woman suffrage in Colorado, but who wish now to reap some immediate benefit from the votes of the women. It is thoroughly partisan advice by partisans for partisan purposes and should be judged accordingly.

When the women of Colorado were vested with the right of suffrage it was upon the theory that such action would in every way elevate the politics of the state, and raise the standard of efficiency of the public service.

Wherever the women have taken hold in organized effort to accomplish such results they have been eminently successful, as witness Denver under Mayor McMurray's administration, when the winning ticket was named and elected by the women of that city Neither before nor since that time has Denver had such a clean or competent administration of its affairs

The duty of women in this campaign is the same as that of all other good citizens, viz · To elect only such candidates as are worthy of public confidence and honor, and to vindicate their convictions upon great public questions by the use of the ballot on election day. Perhaps more is expected of the women than of the men in assuring the defeat of those who are morally unfit to hold public office

Naturally enough the women of a state where suffrage is serving as an example to the balance of the country can be expected to use discriminating judgment as to the persons who shall stand before the world as the public representatives of their intelligence, their patriotism and their moral standard

With all these things in view, every Colorado woman eligible to vote should most assuredly cast her ballot.

There will never again perhaps be another opportunity when the ballot of the women can be so effectively used for the cause of good government as at the coming election Questions of world-wide importance are before the American people, and a decision of national policy is to be reached which will control the entire future history of our country.

The paramount issue is a sharp and definite one between national dishonor and disgrace on one hand and national pride, the honor of the flag, progress and civilization on the other.

The women of Colorado should esteem it an honor to be able to cast a ballot at such a momentous time in our history and none of them should fail to exercise her rights.

GOOD ROADS IN COLORADO.

GOOD roads are a most important advantage and resource to any state and especially so to Colorado. The Gazette therefore gladly calls attention to a State Good Roads convention, under the auspices of the Denver Chamber of Commerce, the Arapahoe County Good Roads association, and the several improvement societies of Denver, which will be held at the Chamber of Commerce, Denver, Colo., Oct. 30, 1900.

The objects of this meeting are to awaken and to promote a more general interest in the improvement of the public roads, to discuss the various ways and means of securing needed legislation, and the necessary funds for this purpose, the best methods of constructing and maintaining the public highways of Colorado, and the naming of delegates to the National Good Roads convention, to be held in Chicago, Nov. 19, 20 and 21, 1900.

Mayors of cities and towns, county officials, commercial clubs and other business men's organizations, road improvement societies of every class, farmers' institutes, grange organizations, wheelmen's leagues and all other organizations interested in good roads are urged to send delegates to the state meeting in Denver on the above date

Speakers of distinguished prominence and national reputation will be present to discuss internal improvements from a political, social and commercial standpoint The meeting will also be addressed by citizens of this state well posted on the subject of good roads, and the attention of the convention called to the advantage to be gained by active, progressive and united efforts of all the citizens of this state toward securing good roads for Colorado

The railroads have granted a one fare rate for the round trip from all points in the state to Denver, selling date Oct. 29, and return limit Nov. 1.

BRYAN'S BIGGEST MISTAKE.

THE biggest mistake of the campaign, so far, is the speech that William J. Bryan delivered in Indianapolis, when he undertook to outbid Debs for the Socialist vote in the state.

The Democratic committee would doubtless be willing to pay several thousand dollars to have that speech wiped off the record, but the trouble is that the Democratic campaign is one of hypocrisy, deceit and contradictions A speech intended for one locality or class of voters is almost sure to cause trouble elsewhere

What Mr. Bryan said was

"What domestic reason is there for a large army? To protect us from the Indians? No The less Indians we have the more army the Republicans want. That is not the cause.

"Why do they want it? So that they can build a fort near every large city and use the army to suppress by force the discontent that ought to be cured by remedial legislation

"The laboring man asks for arbitration and gets a large army, he asks for relief from government by injunction and gets a large army: he asks protection from the blacklist and his answer is a large army; he asks for shorter hours of labor in order that he may have more time with his family and for the development of his mind, and his answer is a large army, he asks for representation in the president's cabinet in order that labor may be protected and his answer is a large army That is the domestic reason which is not given indeed, it is a reason entertained by many. What is the reason they give? They say we need it for our foreign policy, but, my friends, they asked for the army before the American people had ever decided upon a foreign policy that made a large army necessary."

Mr Bryan's managers will have hard work to explain away this speech The best excuse they can give is that he did not mean what he was saying, and that it was a demagogue's appeal for the Socialist vote.

The alternative is not a pleasant one. Either Mr Bryan is opposed to the enforcement of law, and believes that the government should be left powerless in the face of riot, or he is wearing the mask of Riot for a selfish purpose

The Indianapolis speech has already cost Mr Bryan thousands of votes among the more conservative classes who were trying to swallow his candidacy because he is the official candidate of the Democratic party, and it will turn thousands more against him before the end of the campaign.

FILIPINO MORALITY.

THE report of the first Philippines commission contains some interesting passages bearing upon the character of the Tagal and half-breed leaders of the present insurrection, and their ideas of warfare

The statements quoted are from the condensed report of the commission and are attested by the signatures of Dewey, Otis, Worcester, Schurman and Denby, Americans of the highest standing and character.

"When the city of Manila was taken on August 13 the Filipinos took no part in the attack but came following in with a view of looting the city and were only prevented from doing so by our forces preventing them from entering" (Vol 1, page 173)

"After the taking of Manila the feeling between the Americans and the insurgents grew worse day by day. All manner of abuses were indulged in by the insurgent troops, who committed assaults and robberies, and under the orders of General Pio del Pilar even kidnaped natives who were friendly toward the Americans and carried them off into the mountains and killed them." (Vol 1 page 173)

"On the night of February 22 some 500 insurgents entered the district of the city known as Tondo, where they started a conflagration and fired on our guards It had been planned that the local militia should join in this attack. All the whites were to have been massacred, and certain enthusiasts had even wished to include the mestizos, (people of mixed descent), on the list of the proscribed; but prompt and vigorous action on the part of Provost-Marshal-General Hughes rendered the intended uprising abortive, and no subsequent attempt was ever made" (Vol. 1, pages 175-6)

These statements rest upon evidence, considered by the members of the commission to be so thoroughly reliable that they have made the statements over their own signatures, and they would seem to afford sufficient evidence upon this point The leaders who would lay their plans and would issue orders for the indiscriminate massacre of all the whites in the city of Manila cannot establish their reputation for civilization by any evidence less conclusive.

To have turned the islands over to the control of Aguinaldo and his associates at any time would have been a gross betrayal of the duties of humanity and would have subjected this country to the deserved condemnation of the civilized world.

To abandon the islands now to these savage and selfish leaders would be a violation of solemn obligations as well as a disregard of our duty as an enlightened and a civilized people.

FROM THE STATE PRESS

Items of Interest for Gazette Readers From All Parts of the State.

THE GAZETTE'S NEW PRESS.

The Colorado Springs Gazette is now equipped with a new double-deck, straight-line Goss printing machine, manufactured especially for their office new [illegible] and stereotyping outfit, and now stands in the front line of western journalism in equipage. The Banner would like to see the Gazette make a wonderful success in order to prove it to the world that a newspaper minus rot, sensational and vulgar articles, is appreciated by the reading public.—(Elbert County Banner.

The Colorado Springs Gazette has just added to its office a new Goss perfected printing machine with a capacity of turning out 25 000 8-page papers per hour, or of larger size up to 20 pages, 12 500 per hour. There is also added stereotyping and other machinery, the total cost being many thousands of dollars. The Gazette is putting on metropolitan airs, and is undoubtedly prospering.—(Aspen Times

STATE INTERESTS.

Dr. Grannis of Colorado Springs, who has been drilling for oil on the Little Fountain, north of Pueblo, since last June, has encountered a number of good looking streaks during the last two days, and each succeeding streak becomes larger as depth is gained. Every indication points to a good well The present hole is now at a depth of 1,900 feet, and the drill is still going down. The first well was drilled so crooked that the rig was torn down and moved to another location It seems now as though the oil territory of Colorado will be expanded.—(Florence Tribune.

If Denver's police force would get a move on it, and to some degree suppress crime and vice in that city, Colorado might justly claim to have outlived the time when it was a part of the "wild and woolly west" The present conditions in Denver, however, would hardly bear out such a statement A record of 67 holdups and robberies inside of three months doesn't impress one as being that of a well-governed section of civilization, and as long as such a state of affairs exists Colorado will be looked upon as an open field for Christian missionaries and good government societies Out of the 67 holdups the Denver police and detectives have made the splendid record of capturing five suspects.—(Florence Tribune.

Women of Colorado have at this time a golden opportunity to inaugurate a new work of reform It is more urgent and practical than even the noble works of charity in which many of them are engaged and in which all of them sympathize It is the work of redeeming Colorado from the loose methods and evil influences that have wrecked its reputation and its treasury. Women who stay away from the polls next month cannot thereafter carry a clear conscience. — (Trinidad Chronicle-News.

Whatever the result of the election, the great and important subject for the people of the Arkansas valley to take up after the election is the question of reservoirs In this as in every other enterprise we need pushing and practical leaders Who will come to the front and make a good thing for himself while at the same time adding to the actual production of agricultural merchandise?—(Pueblo Chieftain

Seven hundred new accounts have been added during the present year to the list of depositors in the Pueblo Savings bank. This fact is significant It tells a tale of good times and prosperity better than tongue or pen can tell. It is proof positive that the wage earners of this city are getting on their feet financially and are doing better now than for years past Are these people going to vote for a change of administration just to please a lot of opposing office-seekers out of a job? Hardly. It is a matter of self-interest with them to leave conditions as they are They prefer to have bank accounts rather than that the bank should hold their notes.—(Pueblo Indicator.

NATIONAL POLITICS.

Up to date the Denver News has not claimed that the fact that the Democrats at Fort Wayne, Ind., threw stones at Gov. Roosevelt was because they hated Wolcott. On Saturday in Kentucky the Democrats interfered with Roosevelt and made such a noise that he could not speak Likely the News would blame this to Wolcott, too.—(Boulder Herald.

The opposition is making a mistake by attacking the war record of the Republican party In the '60s the Democratic party did the same thing, belittling the efforts of the war for the Union, and '64 declared the war a failure. Lincoln, whom they now worship, was declared to be a violator of the constitution But Democracy never learns by experience and may always be depended on to blunder at any opportunity That party was defeated at the polls as it will be this year. The masses of the people of this country are not "agin" the government, but are intensely patriotic By virtue of our arms and by diplomacy this country has become a world power the Philippines, Porto Rico and Hawaii are ours and we do not think the people of this nation will permit the Democracy to despoil us of the results of Dewey's victory in Manila harbor.—(Longmont Call.

F C Goudy, Republican candidate for governor, is well known in this state, but not as an office-seeker He is a strong candidate, for he is a man of good executive ability one of the best speakers in the state If elected he will keep the lawless element under control and give us a good honest administration.—(Longmont Ledger.

Artists of yellow journals picture W. J Bryan standing in a whirlwind and stabbing in the back a monster labeled "trusts" Any man who has brains enough to grease a gimlet knows that Republican or Democratic administrations have nothing whatever to do with trusts We have to lay what is known as "the profit system"—a system whereby a man or corporation makes all the profit possible, according to his ability. As long as this system is in vogue it will be the most insipid rot for Bryan or any of his supporters to get up and tell how the people are robbed by the trusts "manacled by imperialism" As long as there is a system of profits there will be capitalists seeking business in the remotest corner of the earth, and they will not ask whether they are under Republican, Democratic, monarchic savage, or any other rule. Are all the people today who are out for profits Republicans? Are they all Democrats? Are those making money in Cuba all Republicans? Do opportunities in the Philippines, or in China, or in Ecuador, or in Chile, or in any principality, say that only Republicans need apply? The matter is a case of sour grapes with the Democrats, and though we dislike to say it, Bryan's assumption, his canard, that he can lead the people out of bondage, is base-deceit He knows better, and he knows that he is but a cheap office-seeker, prating of honesty.—(Berthoud Bulletin.

STATE POLITICS.

Colorado will go so near Republican this year that it will cause the Democrats locomotor ataxia. Three-fourths of the Republican candidates will get in The sentiment even in Arapahoe county is changing rapidly towards a Republican complexion It only shows that "you cannot fool all the people all the time" The yellow journals of Denver by their frantic frothing, emphasize emphatically the fact that they are not half cock sure of fusion's winning the fight, and pounding brass as they are doing will only succeed in putting the Democracy in a state of Wertherean woe.—(Golden Globe.

Only one weekly newspaper in Colorado has changed from Republican to fusion this year, while some sixty or more have gone from fusion to Republican In Otero county there are six newspapers supporting the Republican ticket at the present time, while in 1896 there was but one. The signs of the times are ominous.—(La Junta Tribune

The fusion parties of this state have become so corrupt and have made so many mistakes that they would not have a ghost of a show if they had to rely upon their own merits or demerits in this campaign. They are fully advised of their own shortcomings and are endeavoring to cover them up by raising a great dust about silver and Senator Wolcott. The former is a dead issue so they are working the Wolcott racket chiefly Their campaign cry is anything to beat Wolcott, forgetting that there are very much more important matters to be considered by the people of this state than the election of a senator While they are fighting Wolcott they fail to say who shall stand in his place If it be Charley Thomas or Thomas Patterson it would only be pulling down a very good man for the position only to put up a very poor one. They are afraid to say who they favor. They dare not name their man and give the people a chance to express their opinion on them through the local ticket. The great majority of the people are disgusted with Democratic and fusion incompetency in state affairs and they desire a change and they have long since concluded that a change is imperative To make a change the fusion candidates for the legislature must be defeated. It is to the interest of the state and every county in the state that the Republicans succeed The voter must vote the Republican ticket if he desires this change Even if he does not admire Wolcott, he would be cutting off his nose to spite his face to vote any other ticket. The same men who elect a senator make our laws The laws are the most important to us and we sacrifice 89 days' work of the legislature to the work of one day.—(Greeley Sun.

As the time has approached so near for the election, a word in regard to the responsibility resting upon voters will not be amiss Within the next month the voters of Colorado will place many men and women in office in the state and help fill the highest offices for the nation It is a serious business and one in which all voters should be exceedingly conscientious The women of Colorado need to realize more fully the invaluable privilege which is theirs, for there is no class of citizens who have more need to be anxious for a clean and safe government than the mothers of the rising generation.—(Fowler News.

Perceiving that the voters of Colorado are unwilling longer to be humbugged by a pretense of friendship for silver or by fear of militarism or imperialism, fusion bosses are frantically trying to make a paramount issue of Wolcott, wherefore with the cunning of serpents and the malice of defeated and fallen angels they have undertaken to make the people believe that the thievery, the robbery and the murder which under fusion control are making Denver notorious and bringing down the condemnation of the people, is the work of thugs hired by Wolcott to commit the depredations. Fusion must be in sore straits when it finds it necessary to lay its own incompetence to such a cause. The scowling anarchist is less dangerous to society than the man who could originate and publish such dastardly slander and it is difficult to say offhand whether he belongs in the infirmary or the penitentiary.—(Pueblo Mail.

LOCAL CANDIDATES.

The Republican nominee for judge of this district has returned from practically a house to house campaign He feels highly pleased with the reception accorded him at every place visited and feels certain of his election. The judge has made friends by eliminating politics from the office as people are tired of partisanship before or after election upon the part of the man selected to try cases and mete out justice Upon those grounds, if upon no other, Judge C. E. Brady should and will be elected.—(Gillett Forum.

That the Republican judicial ticket is elected is very important. Good men should be on the bench and an honest and energetic district attorney elected. The united bar of Teller and El Paso county indorse Judge Ira Harris and Hon. C. E. Brady for district judge and John V. Sheafor for district attorney. They stand head and shoulders above their competitors in ability and legal knowledge. Vote the Republican ticket without a scratch, but if you do scratch, remember the Republican judicial ticket.—(Gillett Leader.

The Journal desires to warn the voters of Manitou against several unscrupulous and unprincipled supporters of M. M Sinton, the fusion candidate for commissioner, who are at work in this town offering to guarantee votes for any Republican candidate down in exchange for votes for Sinton. They are desperate and are resorting to all manner of chicanery and illegitimate methods to get votes away from the Republican candidate W. H. Fairall. These political tricksters cannot deliver the goods and they know it. Those who are beguiled into making such a trade with them will be deceived and robbed of their votes.—(Manitou Journal.

THE DEMOCRATIC VIEW.

The workingmen who can be influenced to vote for McKinley by threats of starvation may be driven to the polls 1104 at the point of the bayonet to vote for Hanna. It would be the logical conclusion of present methods. A vote for Bryan will retire Boss Hanna to private life at the end of his senatorial term.—(Florence Reflector

Now Is the Time

"The time to purchase real estate is RIGHT NOW Why this is true is plain to the most superficial mind. Election year is always the time of low prices in realty everywhere and it is also true here But this is not the only reason why prices in real estate in this city are going up. Any man or woman will admit that Colorado Springs is destined to be one of the large cities of the great west and that its growth during the next few years will be unsurpassed by any city of its size in the United States. If you are pessimistic and don't believe this come in now and get some prices on desirable realty and then come in again in a year from now The sensible man and woman will get the prices and BUY NOW.

Discussed British Columbia Mines

Mr W J Williams of Rossland British Columbia, was at the Alta Vista yesterday evening on his way to the Cripple Creek district. Mr Williams is in the United States in the interests of the Miner and Graves syndicate which has large mining syndicate in British Columbia. He is here for the purpose of visiting the various mining districts of this country in order to see the [illegible] machinery being used here and the methods of mining in America. He has already visited a number of mining camps in other states, recently being at Butte Mont and in the mining districts of Utah.

In speaking of mining conditions in British Columbia last night he said:

Of course we have not yet reached the stage of development to which Cripple Creek and your other mining camps have attained. We are a new district but we have every reason to believe that British Columbia will become one of the best mining countries in the world and one of the biggest producers.

The syndicate which I am representing here controls a large number of companies in British Columbia, chief among which are the Kirch Hill Gold Mining company, the Old Ironsides Mining company and the Granby Consolidated Mining and Smelting company. These companies operate in what is known as the Boundary Creek district. We are also operating in the Rossland district and in the Trail Creek district. We have about 1,000 feet of development in the way of shafts, tunnels, etc on our properties.

The ore bodies there are exceptionally large and give promise of attracting attention in the world over. The Granby smelter is now treating 600 tons per day of our ore.

Mr Williams says that the general condition of the country is good and that English capital is coming in now quite freely especially for mining purposes. Mr Williams was in Colorado Springs 20 years ago on his way to [illegible] mining up to the time of the big strike of 1880. He commented upon the change in the city from the days of 20 years ago. But said that he was able to find the friends with whom he stopped here in those days. He [illegible] Cripple Creek [illegible] and will spend some time there looking over the camp.

Consul Moulton Tells of British Guiana

Hon George H Moulton the United States consul to British Guiana was in Colorado Springs yesterday on his way to Glenwood Springs from Denver. Mr Moulton resides in Denver and formerly lived in this city. He is in the United States on a leave of absence and will return to British Guiana about the 1st of December.

In speaking of the country in which he represents the United States Mr Moulton said:

There is very little to be said of the conditions in British Guiana outside of what is contained in my report to the state department which has been published. Very little happens over there.

When asked for something about the country and the people he said:

The niggers and the Portuguese are the natives over there. The Portuguese are very thrifty. They are largely the store keepers of the country. They do not meddle much in the management of the country and if they get into trouble they apply for help to their own government. Of course British Guiana is an English colony and the governor and other chief officials are appointed by the crown. The chief industry of the country is the sugar industry. This is quite extensive. The sugar of the country is shipped to the United States and England and we take over half of it. In return we feed the country. It is said that our flour is the only flour that will stand the climatic conditions over there.

British Guiana is in the tropics and the climate is very moist and hot. If one ventures out into the sun he will soon begin to perspire tremendously and will be thoroughly exhausted in a short time but most of the white people over there stay in doors during the day-time and in the evening they can drive out with comfort. There are white people of all European [illegible] there and English is spoken. Business is transacted in dollars and cents. Continuous residence in that climate would be disastrous to white people. It is the general verdict of physicians who have studied the climatic conditions over there that [illegible] should get out once in every two years at least. The labor element is brought in from the East Indies. The coolies are employed in the sugar fields the natives disdaining to do the work. The coolies are paid 24 cents a day and feed themselves. They can live for six cents a day and often save money. After their term of indenture is over they are shipped back again and the last ship load carried out $1,100 which they had saved from their meager earnings.

Mr Moulton stated that the country would not grow commercially important until more people went into it. He said the sugar industry was one inducement for increased population and that the coffee industry had thrived before slavery was abolished and could be made to flourish now with capital. The [illegible] large to eats there and mining is carried on on a small scale. Georgetown [illegible] is a city of 50,000 people and has many of the modern conveniences such as electric lights and electric street cars though these are very recent innovations.

Mr Moulton will return from Glenwood to Denver in a few days and will stay there until election is over.

Second Story on Pike's Peak Hotel

[illegible] fine new addition in the form of a second story is being built to the hotel at the summit of Pikes Peak and those who visit that resort hereafter will see a number of marked changes. The new story has been in course of construction for several days and will be completed in the near future. It is to be divided into several large rooms and there are to be handsomely furnished with fine furniture and draperies and will be as elegant in appearance as the average room in the most modern hotels.

Mr J G Hiestand the proprietor has found the addition quite necessary on account of the great increase in demand for hotel accommodations on the summit of the Peak. The [illegible] has been growing since the erection of the present building and Mr Hiestand has decided to accommodate the public by enlarging his hotel. During the past season the hotel proved too small to accommodate the large number of people who visited the summit with the intention of remaining all night and many were sadly disappointed. A great many people will go to the summit of the Peak in the evening for the purpose of viewing the sunrise on the following morning and they feel ... the demand for a larger hotel.

The new addition being built of the finest native stone and when completed will cost about $1,200. It is [illegible] feet in dimensions and will be divided into five large rooms. It is being erected just above the [illegible] covered by a heavy iron roof. Two foot walls are being built so that the building can be easily heated. The new rooms will be equipped with all modern conveniences.

Before next spring the tower which now stands over one end of the old part of the building will be placed above the new story. It will then stand about 100 feet and will afford a grand view of the surrounding country. The entire Cripple Creek district can then be seen from the top of the tower.

BRILLIANT METEOR—A very brilliant meteor passed across the south-eastern portion of the skies last evening about 11 15. It attracted the attention of everyone on the streets at that hour.

TEACHERS LECTURE—Dr Z X Snyder president of the State Normal school will address the teachers of Colorado Springs, Colorado City and Manitou at the high school in this city next Friday evening at 4 o clock.

PRAIRIE FIRE—A small prairie fire started yesterday morning about 11 o clock in an open field several blocks north of the city near the Denver and Rio Grande tracks. It is supposed to have been started by sparks from an engine. The North End fire company and the truck from the central station responded to an alarm turned in from box 53. The firemen carried a few buckets of water from a switch engine and soon put out the fire.

Interesting Facts On Cheyenne Canon

For the past nine years the big mines of the Cripple Creek district have been exploited far and wide as the richest in the country if not in the world. Everybody knows all about them. Here in Colorado Springs every man and woman and almost every child knows the history of [illegible] individual mine—who it belongs to, what its stock is worth and what its prospects are. Whenever a new mine is opened up or a rich strike is made, the [illegible] the rush to get in immediately follows. But in this general rush there is one property—nearer home than Cripple Creek—whose richness seems to escape the standpoint is sell [illegible] and which is never visited by investors except when they take a half day off for a pleasure trip. Literally it is not a gold mine and really offers no opportunity for investment. Moreover it is not owned by a stock company and consequently its shares are not quoted on the stock exchange but figuratively it is one of the richest gold mines in the vicinity and pays its owners a larger per cent profit on the investment than do a great many of the real mines.

There has never been an ounce of ore shipped from South Cheyenne canon and so far as anybody knows there is no ore there so the comparison may at first seem a little far-fetched but a property that pays $20,000 a year on a $3,000 investment is good enough to be classed as a gold mine.

The story of how this canon—one of the grandest of the many scenic wonders around here—came to be a private institution is the tale of a sadly neglected opportunity for the city of Colorado Springs. There was a time when the 320 acres comprised in the holdings of the Hull brothers could have been had for a song and with the North canon would have made perhaps the grandest and in every way the most remarkable public park in the United States. But that day is past and the enterprising sons of an enterprising father are now reaping a harvest from the short sightedness of a former city government.

Before December 1872 the canon like all of the other mountain region thereabouts was government land. On the fifth of that month Nathaniel Colby entered 160 acres. This was the first entry made in that vicinity and included the Seven Falls. Colby kept the property less than a year—nine months to be exact and on September 5, 1873, sold it to the Colorado Springs Land company for $1,000. The insignificant sum received shows the small appreciation the owner had of its real value and the circumstance is another of the innumerable instances to be found in Colorado Springs of fortunes missed by failing to hold on to a good thing.

The Colorado Springs Land company at that time was nearly identical with the city of Colorado Springs for it owned the townsite and a good part of the surrounding country. Right here was the opportunity for the city to acquire possession of the canon and right here is where [illegible] missed it. People thought that as long as the company held the property it practically belonged to the city and no effort was made to buy it although the company offered it at the purchase price—$1,000. For nine years they retained possession and during that time it was open to the public without charge, then on December 18, 1882 Mr Jas Hull with an eye to future developments offered $250 for the 160 acres and got it. That put an end to the dream of a Cheyenne canon public park. Mr Hull had already been [illegible] to buy up canon property having secured the 160 acres west of the Seven Falls on July 8 of the same year. This part belonged to Henry Coby and he parted with it for $500. On May 7, 1885 Mr Hull pre-empted 80 acres more from the government making a total of 400 acres. This includes about everything of value in the canon.

Mr Hull was the first owner of the rocks and water falls to appreciate their real value. He was far sighted enough to see that the day was not distant when Colorado Springs would be a summer resort of national reputation and the canon one of its chief attractions. In the short distance of a half a mile from the entrance to [illegible] is found some of the grandest scenery in Colorado. When this and the easy accessibility are considered it seems remarkable that the city government should have failed to snap up the prize it could have gotten so easily.

After Mr Hull got possession of the canon he commenced to build roads and put it in shape and make money. A little advertising was done and pretty soon [illegible] a toll gate was put across the entrance and 25 cents collected from everybody who desired to go in and gaze upon the wonders of nature. On the other side Colorado Springs grew and flourished like a green bay tree and more tourists and health seekers came here every year. Of course they all went to the canon many of them several times. Business increased and when Mr Hull died in 1890 and the property passed to his sons it was in a flourishing condition. They built a stairway up the cliff by the Seven Falls, improved the road and otherwise increased facilities for the convenience of tourists. The advertising appropriation was also increased and the canon continued to coin money at such a rate that last year the assessor raised the valuation from $3,000 to $53,000. But that represents only a part of its value for $250,000 would not buy it now.

The owners estimate that by the close of the present season 50,000 people will have passed through the gate which means a gross income of $20,000. This exceeds any previous year but business is constantly increasing and before 10 years they expect to have double that number of admissions. The stand and burro privileges of course add considerably to the receipts.

The expenses of operating the canon while not heavy are yet greater than one might think. Of these the largest is that of advertising. One hundred thousand small booklets for distribution in hotels, railway stations etc were used this year and an even larger number will be sent out next season. The improvements in the canon will also use up a share of the profits. Just now a gang of men is at work widening the road and raising it above the level of floods and washouts. It is a pretty difficult job of road building for in places the way has to be blasted out of a solid wall of granite. When it is completed it will be 23 feet wide from the entrance to the falls and teams can pass at any point.

This is the kind of a place that the early city fathers of Colorado Springs allowed to slip through their fingers. We still have the North canon but as a scenic [illegible] it [illegible] compared with its rival to the south. But the city's loss is another's gain and the visitor who contributes his quarter to the wealth of this gold mine certainly gets his money's worth so [illegible].

One thinks of a gold mine as the highest form of an investment but in all the gold mines of Colorado there is nothing to equal the South canon. The owners need never fear that the ore will play out. Fires may sweep over it and it will remain in grandeur, panics may come but there will be no run on its reserves. Floods may cover it and it will remain. Every year it gets bigger and bigger. No other man that has lived in Colorado ever left his heirs such a sure and yet such a [illegible] Hull.

New Grocery Firm

Mr Geo F and F A Plumb under the firm name of Plumb Brothers have purchased the old established grocery house of Volling Brothers at 126 North Tejon street.

The Messrs Plumb are well known among business men of the city having been connected here for the past four years.

Mr Geo F Plumb organized and until a few months ago was connected with The New York Electric Co.

Already large additions have been made to the stock of the new firm and other additions and increased capacity for handling the business will be rapidly put on with the idea in view of carrying a most complete and up to date stock. The delivery service is being thoroughly reorganized and is now in shape to deliver goods at any specified time irrespective of the regular delivery hour.

Every modern article carried or used in a good grocery will be in the store and prices will always be as low as the advantages of sufficient cash capital for buying in big quantities and a cash business can make them.

Something for Nothing

The satisfaction of knowing your fall or winter dress was selected from a stock of dress goods absolutely correct in style is SOMETHING but costs NOTHING if you choose from the line we are now showing. In fact comparison will prove that in most cases new choice stylish fabrics can be bought here at a radical saving. Last week's dress goods trade was a record breaker notwithstanding the unfavorable warm weather. This week we expect another decided increase.

These Are Some of the Prices That Do the Business:

MARKET LETTERS.

GARDNER & CO.'S MARKET LETTER

Colorado Springs Oct 20

The severest test any speculative market has to encounter is long continued dullness Business the last three weeks has been at a practical standstill and there has been no real active trading for some time

The usual dullness has prevailed during the entire week and outside orders continue extremely limited The dullness excites practically no comment as every one feels it is a waiting market The fact that the market is only dull is a strong point in its favor Trading is restricted only because little stock at going bid figures is for sale The same bids are made daily with either no offers at all or else offers are made half a cent above the bid price and the trade hangs fire

We still think the present time is a good time to buy believing that as it seems impossible to depress prices values are bound to advance before long Mining securities are always restless and it would take but a very few buying orders to start a rise We advise buying now rather than to get excited and buy after the advance has begun Stocks cheaply bought will soon show nice profits

The real strength in the market is that it does not decline Outsiders are willing or rather say they are willing to buy as soon as they are satisfied the low point of prices has been reached The present aggregated dullness and strength combination is proof enough for the average old time operator that the low point is or has been reached and that any change must be for the better

We note the local chamber of commerce has had calls from the Boston Herald and Cincinnati Inquirer the past week for daily quotations on mining stocks and that quotations on 20 stocks are to wired them daily This is certainly a straw showing that there exists a public demand from the east for wired up to date quotations of Cripple Creek stocks

We have individually wired the bid and asked quotations on 50 different stocks to the New York Times for four years and also the same quotations of 0 stocks to the Philadelphia Record for over a year Individual effort can not compare with the great good that quotations sent out by the Associated Press would do There are several reasons for this There are in both Boston and New York twice as many mining brokers as there are in Colorado Springs and each one of these eastern men has his own mining schemes for sale Every eastern mining broker is an enemy of all listed local stocks because they cannot make any money handling them The present commissions on listed stocks would not pay telegrams on business done Therefore ... listed stocks and endeavor to sell their own promotions Again the big eastern and middle west cities are not the places where the big eastern aggregate demand for our stocks comes from The eastern cities speculate mainly on the New York stock exchange

The middle west cities are ... grain on the Chicago board of trade ... the smaller cities and towns of the middle west and the great bulk of eastern orders comes from this source The especial benefit that would accrue from the Associated Press service is that it would place traders in our market who live in these smaller cities and towns of the middle west in quick touch with our exchange They could see in their morning papers the closing quotations of the day before and could have their orders here before the opening of the market the same day and have the same trading opportunities as the local men and not be two to three days quotations behind the market

We look for slight betterment in business and a ... improvement in values the coming week If you desire a list of desirable shares in all the different classes write us and same will be forwarded to you by return mail

REED & HAMLIN'S MARKET LETTER

Colorado Springs Colo Oct 18 1900

Only a few more weeks before election only a few more weeks ... meritorious Cripple Creek shares below their intrinsic value only a few more weeks until the element of doubt incidental to the presidential election will have been removed and confidence and prosperity be ... reflected

The week just passed with ... no different from what could be expected under the prevailing conditions and if these conditions keep up for a ... who have not bought yet may deem themselves lucky as it will give them an opportunity to avail themselves of a money making opportunity that is seldom presented

To those who steadily reason ... advance ... the price of shares after the election ... evident and that the ... when prices are low needs hardly any comment ... the eve of an election the outcome of which promises to be highly favorable to the commercial ... of the country ... no matter how great the certainty ... times like this ... the ... man—very often called the ... who ... three ...

Trading during the week just past was ... particulars ... the lowest ... which if made at present ... the shares ... would in our belief ... to ... some ...

... shares ... the present price of 5 cents	$ 50
Gold Dollar ... shares at the present ...	178
Tenderfoot ... 1000 shares ...	150
R... 1000 shares at the present price of 11 cents	110
Robert ... 1000 shares at the present price of ... cents	160
Little ... 4000 shares at the present price of ... cents	100
	$1,000

It is always ... to distribute one's holdings in various shares, as it greatly adds to the winning chances The properties of all the companies recommended above are located in the Cripple Creek district all shares spoken of are full paid and ... upon request we shall take pleasure in furnishing the fullest details regarding any of them.

BONBRIGHT & CO.'S MARKET LETTER

Oct 19 1900

The week has been the dullest of the year ... ned to a small fraction of the list Prices have nevertheless been well maintained and evidences of strength are no wanting If the buying demand is very light there is on the other hand no pressure to sell ... waiting market sympathizing with the markets of the world during these pre-election weeks Exceptional attraction ... necessary to create activity in a stock ... has ... during the last week in the case of Gold Dollar Elkton and Blue Bell the first two of which scored handsome gains Isabella Work and Acacia are also higher than a week ago The list generally is without important change

The output of Stratton's Independence for the month of September was 1,600 tons of an average value of $60 per ton or a gross value of about $*60,000

Strikes of the week were made in the properties of the Cripple Creek Columbia the Moon Anchor on Battle mountain the Jerry Johnson and the Battle Mountain Consolidated On the Columbia Lessee Barbee has cut at a depth of 350 feet what is—probably either the extension of the Orizaba or Kimberly veins At the point of intersection the ore body is reported to be about 15 inches in width with four inches of very high grade ore running up to $ 29 the ton On the Zeolite and Bloomington Moon Anchor's Battle mountain holdings lessees are said to have cut a wide vein of $50 ore at a depth of 80 feet On the Arapahoe of the Jerry Johnson on the northern slope of Ironclad hill a good vein has been cut at a depth of 35 feet from which no assays ... as yet been taken Lessees on the Trail of the Battle Mountain Consolidated are reported to have opened a good body of ore at the 100 foot level

EDSALL, KEY & CO.'S MARKET LETTER

Colorado Springs Oct 20 1900

Light trading has been the characteristic of the week which is evidently due from lack of orders This was looked for at this particular season owing to the near approach of the presidential election Prices however have had a general upward tendency from day to day and the market closes stronger than it opened on Monday last We consider this a decidedly good indication The holders of Cripple Creek securities evidently appreciate their value and are confident of the ultimate outcome hence will make no sacrifice to obtain ready cash We look for a continuation of these conditions until after the 6th of next month when the demand will in all probability be much stronger and prices correspondingly advanced It still seems to us that no better opportunity will be offered this fall to intending purchasers than those offered at the present time We entertain no doubts that the advantage now taken will result in the realization of handsome profits before the end of the year Work is progressing in the district very favorably and everything points to an era of continued prosperity We know of no vacant ground in the acknowledged district that has not had one or two ... applications made for leasing Owners can almost state their own terms with a certainty of having them accepted This is certainly an indication of the confidence of the men who should at least really know best the value of the property

DELANY & DELANY'S MARKET LETTER

Oct 20 1900

Stocks continue to hold up fairly strong but trading is not of sufficient volume to induce heavy buying Speculators and investors in general are waiting until after election before making any increase in their holdings

Elkton has been strong all the week being the result of an excellent showing at the mine The present earning capacity of this company would seem to warrant a two dollar market on the stock and if the present showing continues you may look for even a higher price

Isabella seems to remain in one rut and we look for a still further decline unless something turns up to encourage tired holders of same

Gold Dollar has been about the heaviest trader on the list and in fact all the Beacon hill stocks are heading up exceedingly well

W S Stratton still shows his faith in the camp by making additional purchases The accumulation of so much property in the north end of the district by one man will have a tendency to force investors to look in other portions of the camp for investment He has been the means of placing a great many hundred thousand dollars in circulation and it is reasonable to expect that some of this money will find its way back to Cripple Creek in the nature of new investments

CROSBY-EHRICH'S MARKET LETTER

Colorado Springs, October 19 1900

The market presents no features of special interest this week Trading is comparatively light—a normal condition at this particular season Prices are less ... and ... fluctuations are only fractional there being no material declines or advances Present conditions are not conducive to easy trading for the presence of even a small amount of stock on the market results in the immediate withdrawal of buyers and the appearance of buying orders either drives sellers from the market or makes them firm in demanding advanced prices The limited range of fluctuations makes the market unattractive to local speculators and this accounts in large measure for the small amount of trading It ... appears that an investment market the bulk of the trading being furnished by investors who do not fear any further serious decline and who are buying to some extent while prices are low

Irrespective of election results the Cripple Creek dividend payers and other well established stocks offer exceptionally attractive investments at present quotations The producing mines of the district are in magnificent physical condition ... development work is increasing their ore reserves and thereby assuring continuous profitable production for years to come new and richer ore bodies are being uncovered in the lower workings thereby establishing the permanency of the camp and the installation of immense plants of machinery accompanied by increased activity all over the district and the completion of the new railroad lines and mills, demonstrates to all who are in close touch with affairs that the Cripple Creek district is entering upon an era of prosperity which will eclipse any past record the camp has made The uncertainty of election results should not be allowed to influence conservative investors against investment in Cripple Creek's sound stocks The occupancy of the White house will not affect the value of gold nor will it diminish the world wide demand for that commodity and Cripple Creek is manufacturing gold to supply a steady and ever increasing demand Sound gold stocks backed by trustworthy managements and going mines should appeal to careful investors as the most desirable interest paying securities ...

A good reason for buying Colorado Springs real estate will be found by reading Lawton & Fertig's ad in this issue of the Gazette

Dr. PIERCE'S Favorite Prescription

MAKES WEAK WOMEN STRONG AND SICK WOMEN WELL

The success of Dr Pierce's Favorite Prescription in the cure of diseases peculiar to women is beyond comparison greater than that of any other medicine prepared especially for woman's use It is not a cure-all but a scientific preparation the prescription of an eminent living physician still in active practice and who, assisted by his staff of nearly a score of trained physicians treats and cures thousands of women every year "Favorite Prescription" has an invigorating and vitalizing power peculiar to itself and a phenomenal control of diseases which attack the delicate organs of woman It permanently cures backache, bearing down pains, ulceration, inflammation and like ills by curing their cause It dries up the drains, puts out the fever fire of inflammation and cures the corroding ulcer It makes marriage a happiness and motherhood a blessing by giving to women such an abundant vitality that the baby blossoms into life as sweetly simply and naturally as a flower Sick women are invited to consult Dr Pierce by letter free of charge All correspondence strictly confidential Address Dr R V Pierce Buffalo N Y

It contains no opium, cocaine or other narcotic, and no alcohol or whisky.

BOULDER COUNTY

The new mill to be erected at Wall Street Boulder county by the Wall Street Gold Extraction company will present many new and important features in the mining business of Boulder The mixture of tellurides and sulphides characteristic of most of the camps of that county has been a serious obstacle to the successful treatment of the low grade ores the ordinary stamp mill methods resulting in a loss of a considerable portion of the values in the slimes Several companies have been making a close study of the ore conditions with the view of discovering a process whereby the saving of values may be increased and W F Knight of this city president of the Wall Street company says that the company will not indorse any special process but will take what seems best calculated to attain its object from all In the construction of this mill it has been decided to start with chlorination and keep the pulp in a sealed pit until—the leaching is thoroughly accomplished the roasting and chlorination being practically one process Subsequently it may be found necessary to concentrate the tailings The mill will have a crushing capacity of 250 tons and furnaces that will roast 100 tons a day The pulverizing will be done by the best rolls that can be secured Mr Knight says that his company proposes to make a most thorough test and will spare no money necessary in evolving a method for the successful treatment of Boulder county ores Construction work will be commenced in a short time—(Leadville Miner

Lion Hunt

The annual hunt for mountain lion and other large game which was inaugurated several years ago by the Colorado Midland railway will be given this year at De Beque, Colo on Nov 1 2 and 3

Among the

Low Priced Stocks

THE BEST "BUY" on the market is...

PROGRESS.

The company owns about 50 acres of valuable patented ground Active development work is being prosecuted

On the Gold King claim, which is located on the top of Gold Hill and surrounded by such well-known properties as Anchor a Leland and Lexington, three sets of lessees are at work and they have all had good ore. This claim has been a shipper for some months past

The showing in this claim is unusually good just now. Ore shoots of great promise have been opened up in Lease Blocks Nos 1 and 2, and there is a fine showing now in Block No 3

The stock is now selling around 6 cents per share and we consider it a splendid "buy" at anything under 15 cents per share

The stock is backed by large and valuable acreage, active development work and good management The treasury reserve consists of about 250,000 shares of the capital stock and about $6 000 in cash

We can strongly recommend the immediate purchase of Progress

Yesterday in the Local Pulpits

REV. MR. ORMES DISCOURSED ON "FAITH"

At the evening service of the Second Congregational church yesterday Rev M D Ormes preached on the theme We Walk by Faith He based his sermon on the text [illegible] which contains the words of the theme and spoke in part as follows

[illegible] In the supremest moment of [illegible] God in [illegible] highest possible [illegible] far as to reach beyond the will of [illegible] truth which is universal and eternal—the just shall live by his faith On the authority of Christ [illegible] by faith [illegible] Thy faith hath saved thee [illegible] According to your faith [illegible] Jesus answering [illegible] Have faith in God All the apostles [illegible] not only the condition of the life of the Christian but also the means of [illegible] growth and enlargement. This is the victory that overcometh the world even your faith

All great and real revivals have resulted in a return to a life of faith [illegible]

But many of the world reject this theme [illegible] They are apt to think that [illegible] something that cannot be [illegible] If it does exist we can [illegible] knowledge of it But faith is the most common and most universal experience of mankind With it it is so [illegible] Some of you went to the restaurant today for your dinner [illegible] There was no [illegible] your food [illegible] to see the cook who prepared the food or the ingredients [illegible] You could not have traced these various products back to their source [illegible] You took the meal [illegible] Without faith in your food you would be worse off than the [illegible] delirious of those about him Tomorrow you will [illegible] never [illegible] for you to know [illegible] all over the world [illegible] the traveler to himself to a set of engineers whom he will [illegible] of the road [illegible] the care and [illegible] hundreds of other agents any one of whom through care [illegible] Without sweet faith confidence in [illegible] home is nothing but [illegible] Who [illegible] is another [illegible] suffers a [illegible] The [illegible] who would live the life [illegible] the life Christ [illegible] are not called [illegible]

[illegible] The life of Jesus comes to us with the same sort of authority as the life of Caesar People who knew him have written about him [illegible] the witnesses have told us [illegible] Furthermore to account for the movement which started from his life and which is today filling the whole earth we must assume an adequate cause There is [illegible] universal agreement that He is the [illegible] man the only perfect man who has ever [illegible] upon the earth If this be true he must have been an [illegible] of [illegible] God as He claimed himself to be when he said I am the way the truth and the life He comes [illegible] with the clearest possible authority with the authority of character of the most marvelous goodness of simplicity [illegible] truthfulness

Faith in Him [illegible] to believe in Him [illegible] and that He is a rewarder of them that diligently seek Him Faith responds to him when he says Come unto me and I will give you rest Faith means confidence in Him when he says I am the way [illegible] I am the way [illegible] and hope and power I am the way [illegible] the largest possible usefulness and joy and the way unto eternal life Faith simply means acceptance of the fact that He can forgive sin cleanse the heart excite worthy motives set up worthy goals that He sanctifies us that he transforms us into a race of God elevating us till we have all the rights and the joys and the exercises of the children of God

Faith in God includes confidence in his [illegible] grace that last for every time of need [illegible] the adoption of his plan for the redemption of the whole world Bring all the tithes into the storehouse and prove me [illegible] if I will not pour you out such a blessing that there shall not be room enough to receive it

Faith in Christ means the taking of his word just as we would that of any honest and sincere man You have confidence in Him we will not doubt his word when about an open grave He says to us Let not your heart be troubled Ye believe in God believe also in me In my Father's house are many mansions I go to prepare a place for you and will come again and receive you unto myself

In [illegible] it is reported there are many millions of pounds sterling in the banks [illegible] has been deposited [illegible] long since dead It is unclaimed wealth People are dying in the poor houses and living under the most straitened circumstances who if they knew they were heirs could claim this [illegible] it [illegible] no good so long as it is unclaimed

Our capacities for blessing and high thought and deep feeling for highest aspirations for largest usefulness, for miraculous power our desires to know God and the truth to reach the blessing of hope and confidence the mysteries of [illegible] can all be met in God and in Him [illegible]

[illegible] than has ever [illegible] A [illegible] His word [illegible] the same of man

DR. BRAISLIN ON LICENSE VIOLATIONS

At the morning service at the [illegible] Baptist church yesterday Dr Braislin [illegible] few words about the action of the city council with respect to refusing [illegible]

Dr Braislin did not discuss the matter at length but said that he thought the Christian people of the city generally should commend the action of the council There might be some question he said whether temperance means prohibition but there can be but one question regarding the violation of the law Dr Braislin said that he [illegible] the law In order to support his family they should be [illegible] ways of treating [illegible] should have the city [illegible] earnestly in support of the [illegible] in its effort to suppress violations of the law

TEMPERANCE REFORM AT THE FIRST PRESBYTERIAN

[illegible]

Dr Boyle had prepared a sermon [illegible] At the close of the sermon [illegible] spoke [illegible] action of the druggists of the city [illegible] the city at [illegible] to govern the [illegible] liquors

[illegible] the action of the council for [illegible] of the druggists [illegible] keep up the [illegible] but proof is [illegible] have violated their [illegible] council and if [illegible] themselves to blame

[illegible] that certain liquors are needed for medicinal purposes and if we need to [illegible] liquor on sale [illegible] We can do without the [illegible] revenue [illegible] liquor [illegible] do a great deal to regulate [illegible] which are [illegible]

The [illegible] Boyle [illegible] a substitute [illegible] adding the sale of tobacco [illegible] to [illegible] under [illegible] penalty of [illegible] first offense and imprisonment for a [illegible]

He closed with [illegible] in God [illegible] He who wrote [illegible] He who is the creator [illegible] is its master as well [illegible] this climate [illegible] to God for vouchsafed [illegible] to keep God [illegible] of commerce [illegible] education out of [illegible] and the [illegible] growing [illegible] the answer [illegible] the grave of a [illegible] nation and the commemoration of her natal day [illegible] charge and celebrate a glory that is turned to shame

The subject for next Sabbath evening was announced as New Century Philanthropy or Sharing Life with the Golden Rule The subject will be illustrated in unique ways

Miss Cordell sang very [illegible] beautiful solo The Sweet Story of Old and The [illegible] No Sh[illegible] Yonder

"A MAN THAT WAS A MAN"

At the First Congregational church last night Dr James B Gregg the pastor preached a sermon on A Man that Was a Man There were [illegible] attractive quartette numbers by the choir and a contralto solo I Heard the Voice of Jesus Say by Miss Maude Courtney of New York city was one of the most enjoyable musical numbers that has been given in any of the local churches for a long time

Dr Gregg took his text from Hebrews [illegible] the world [illegible] of man is he The minister began by [illegible] within the [illegible] He said that the study of the lives of great men [illegible] the most [illegible] the most [illegible] that to be a great man is the greatest aim of mankind [illegible] dream of youth [illegible]

[illegible] Jesus [illegible] who is [illegible] greatest man that ever lived we naturally [illegible] a number of story [illegible] Dr Hall [illegible] I still remember [illegible]

In the analysis of the character of any man there are some particular tests to which we must put him before we determine [illegible] really great [illegible] who can fulfil them all must be [illegible] In the consideration of the character of the Apostle Paul Dr Gregg followed [illegible] The character of Paul [illegible] From it [illegible] Apostle Paul was the [illegible] He succeeded [illegible] Augustine [illegible] Luther [illegible] Wesley [illegible] Washington with Napoleon The former [illegible] grows greater in the eyes of [illegible] Washington [illegible] intellectual power [illegible]

[illegible] lesson from the life of [illegible] great [illegible] through suffering [illegible] able to understand and appreciate the sorrows of others

Great moral development means the all round development that goes to make up a true man [illegible] Shakespeare [illegible] Mark Anthony over the body of Caesar [illegible] The evil that men do lives after them the good is oft interred with their bones [illegible] It is the natural way for [illegible] but it is a false [illegible] The evil that men do [illegible] that the good that [illegible] through the ages

[illegible] of the Apostle Paul [illegible] and the truth [illegible] his influence could not fail to be [illegible] and uplifting to mankind [illegible]

DR. BOYLE'S LIST OF SERMONS TO 1901

Rev W H W Boyle pastor of the First Presbyterian church has arranged the following series of sermons to be preached each Sunday evening until the first of next year

December 16—New Century Manhood or the Standard of a True Type

December 23—New Century Womanhood or Mary the Mother and Other Marys

December 30—New Century Prophecies or the Dawn and the Duty

CHRISTIAN ENDEAVOR

A rousing echo convention rally was held at the First Baptist church on last Tuesday evening under the auspices of the city Christian Endeavor union The lecture room of the church was crowded Nearly every part of the convention programme was briefly reported

At a recent meeting of the city union which was largely attended the first steps were taken toward making the state convention which is to meet in Colorado Springs next summer a success A committee of three was appointed for the purpose of recommending names for a chairman vice chairman secretary and treasurer of the [illegible] convention [illegible]

The Christian Endeavors of Fort Morgan are preparing for [illegible] county convention to be held on the 9th of November There are not many societies around Fort Morgan but they are [illegible] in that section of the state

The Colorado Springs Christian Endeavor Union Mission Sunday school is now doing excellent work The teaching force [illegible] large [illegible] attention

The president of the Colorado Springs Christian Endeavor union after serving the union in the capacity of president for more than four years handed in his resignation which is to take effect at the next regular business meeting Mr Clapp [illegible] reason that state work [illegible] attention

At the state Christian Endeavor convention which was held at Denver Oct 4 5 and 6 the following state officers were elected President H R Ch[illegible] of Colorado Springs [illegible] I R A N Wilson of Pueblo corresponding secretary Miss Ella Quee of Denver recording secretary Prof H [illegible] superintendent of Christian citizenship Rev Leonard C Thompson of Denver superintendent of missionary work Miss Jewel Aiken of Colorado Springs superintendent of junior work Miss Nellie Williams of Cherry, Douglas county treasurer Mr Bert Klise of Boulder vice president for northern district Prof A A [illegible] of Boulder vice president for northwestern district Rev C P B Ward of Grand Junction vice president for southwestern district Rev M D J Sanchez of Antonito vice president for central district H J Olmsted of Colorado Springs vice president for Denver district Miss Marion Cordingly of Denver vice president for southern district, Rev W J Fisher

A meeting of the state executive committee has been called for Nov [illegible] to be held in Denver

A lookout committee of the city union was reorganized on last Tuesday evening It is to consist of the chairmen of all the lookout committees of the city with Miss Banschbach the vice president as chairman assisted by Miss Sayre The duty of this committee will be to see that each society in the city is doing its best and also to organize new societies whenever it is possible

At a meeting of the teachers of the city union mission Sunday school yesterday afternoon presided over by the recently elected superintendent M C B Lauterman the retiring superintendent Mr Coapman was elected assistant [illegible] and a committee was appointed to make nominations at a meeting to be held [illegible] Sunday

By a unanimous vote a mid week meeting will be held Thursday evening at 7 30 o'clock The first one will be held on next Thursday evening

We Say Out Loud

that Beckwith's Round Oak is the best fitted most carefully and thoroughly [illegible]

We know the market and its equal is not in existence. We have all kinds of stoves but if you leave it to us we say

Take the Round Oak

We have the best made and best finished HOT BLAST stove in the market

G. S. BARNES & SON,

17 South Tejon Street.

The Biggest, Quickest Fortunes

come from oil Oil wells produce greater wealth, and more quickly than gold mines, at far less expense Oil and coal are commodities of every day demand The richest oil and coal lands between the far east and the extreme west, are in Routt County, Colorado

The North Western Oil & Coal Company

made the first and choicest location of lands in this territory, where high grade oil oozes from the ground, securing 1440 acres of oil land, and 640 acres of coal land Its $5000 plant is shipped and will soon be in operation To cover the cost of purchase and preliminary work there will be sold

Lion Hunt.

The annual hunt for mountain lion and other large game which was inaugurated several years ago by the Colorado Midland railway, will be given this year at De Beque, Colo, on Nov. 1 2 and 3.

The hunters will leave Colorado Springs on Oct 31 via the Colorado Midland railway for De Beque where they will be met with suitable conveyances for their transfer to the hunting grounds

Those wishing to participate in this hunt for big game should leave their name at the office of the Colorado Midland railway at an early date so that accommodations may be secured for all. Very low rates will apply. Join the crowd and add a lion or bear skin [illegible] Splendid season for deer and elk For further information or reservations call at office 13 North Tejon street or address Charles Chandler, City Passenger Agent

The Ham Business

The ham business is a pleasant feature of our business It's pleasant to hear the good things that are said about the hams we sell, and to note the great sale they have. These hams are sugar cured, and the curing is different from the way they cure cheap hams, consequently they are sweet and tender
